WELCOME

Friends,

Welcome to the third annual Health Freedom Summit!

On behalf of our team, thank you for spending your precious time with us over the next four days. Our goal here is to eliminate fear—our previous focus was to eliminate fear of a virus, now we hope to empower you to speak out, and deliver consequences to those that have harmed you over the last two years. You not only have rights, but you have opportunities.

You can go down the rabbit hole when trying to understand what happened to the world since COVID-19 was introduced as a threat in early 2020. At first, I thought it was just a plan to sell vaccines. Now it's clear to most people that it's much more than that. Do not be paralyzed by fear. Your response matters. You were not made to be injected, masked, and brain-washed into being terrified of friends and family. You were made for vitality.

To encourage and embolden you, we've assembled a collection of presentations that will hopefully prepare you in meaningful ways. We've worked to deliver tools to you that you can use on a modest budget to bring you health, independence, and clarity of purpose. I suggest first focusing on getting your health in order, for which we have invited many speakers who have personally taught me and my co-founder, Stephanie, how to have robust health—which has enabled us to make more powerful contributions in the form of communicating, leading, and effecting change.

I'd like to personally thank my incredible business partner Stephanie Lind, a mother of five, and one of the most brilliant women I know, but also all of our speakers, affiliates, and supporters who make these 'second opinion' summits possible.

Alana Newman

Co-Creator and Host of Health Freedom Summit

MAKE THE MOST OF THE HEALTH FREEDOM SUMMIT

1 Pace Yourself & Have Fun

There's a lot of content here; please browse this playbook to see which talks you want to prioritize. **The Summit opens each morning at 8am CST**; that day's sessions will premiere for a full 24 hours until the next day's sessions begin the following day.

2 Watch To Implement, Not Simply To Consume

Our Speaker List is like a justice league, each with their own superpower. Some presentations have details for scientific minds, others will bring hope for the weary, or strategy for front-line warriors. Choose sessions that will help you practically cultivate more of what you need in your life right now.

Some of you are brand new to this field-- welcome!

Some of you have been fighting for health freedom rights for a long time and you need encouragement. Some of you need to be equipped with practical activist training. Some of you need to find language to express these issues better in conversations with your neighbors. Whatever you need, we hope you will engage with this material and that it will serve your journey well.

They never wanted to control Covid-19, they wanted to control us.
—Peter Breggin

During times of psychological warfare, collective courage of conviction will be our strongest weapon. -Monica Smit

HOW THE HEALTH FREEDOM SUMMIT WORKS

With your free pass, you get to enjoy...

4-day full access pass to the Health Freedom Summit online event. **The sessions will release everyday at 8 am CST and be live for 24 hours.** Your free access pass gives you access to the entire summit completely free.

Just Some Of What You'll Learn:

- How to precisely treat Long Haul Covid
- Top mistakes people make in regards to religious exemptions.
- How to artfully communicate with your audience AND personal contacts.
- How to overcome grief after losing a loved one to medical misconduct.
- How to sue your local politicians for violations of their oaths of office.
- Scientific facts proving the mRNA shots destroy the immune system and lead to neurological degeneration.
- Verifiable evidence that globalists are manipulating public health agencies.
- Plus—discover how to gently detox using practical, affordable products.
- Plus—you'll learn mindset training and tactical tools to keep you going.

You also have the option to purchase the Premium Pass to watch and listen with on-demand, life-time access.

Health Freedom Stories

Health Freedom Stories publishes English language stories from real people who have experienced victories, challenges, hope and tragedies regarding COVID-19, lockdowns, medical mandates, masks, vaccines, depression, business closure and financial stress... if it relates to fighting Pharma and the politicians that do their bidding, Health Freedom Stories is interested in publishing.

World Premiere

We are very proud to bring you, filmmaker, Claire Dooley's much-anticipated feature-length documentary on the incredible story of how a band of working-class heroes united to take on medical tyranny. After working for several years assisting in the creation of other landmark films of the health freedom movement, *Between Peace and War: An Insider Look at the People's Convoy* is Dooley's first full-length film that she can claim wholly as her own. Be sure to follow this impressive young woman's career; her contributions to our movement can not be understated.

This is a defining media piece for the health freedom movement and the story of Covid-19. This documentary gives a voice to a group of men and women who put their comfort on the line in a meaningful way for the freedom of a nation.

BETWEEN PEACE AND WAR AN INSIDER VIEW OF THE PEOPLE'S CONVOY

Exclusively at:
HEALTH FREEDOM SUMMIT

Day One: Health & Science

Corruption, Persecution, and the Epidemic in Sickness Among Vaccinated

Dr. Paul Thomas

Five days after publishing a landmark study looking at the health outcomes of vaccinated vs. unvaccinated children in his large pediatric practice, Dr. Paul Thomas was notified by his attorney that the Oregon medical board was revoking his license to practice medicine. Hear Dr. Paul discuss the systematic persecution of truth-seeking physicians and legitimate science as well as the epidemic in chronic illness, SIDS, allergies, heart disease, and other diseases that are directly related to vaccinations.

The Role of Heavy Metals in Chronic Disease

Eddie Stone

After struggling to find real solutions to his mother's declining health, Eddie Stone desperately began listening to so-called "quack" doctors who were uniquely making a connection between the role of toxins and chronic health. His mother began recovering after implementing a detox protocol utilizing zeolite, and today he runs a major detox brand called Touchstone Essentials, which mines and bottles clinoptilolite zeolite—the safest known heavy metal detox supplement on the market.

COVID-19 Vaccines and Neurodegenerative Disease

Stephanie Seneff, PhD

The mRNA COVID-19 vaccines have been rushed to market without adequate evaluation for safety or efficacy, and there is now an aggressive campaign in place worldwide to promote vaccination on a grand scale. In this talk, Dr. Seneff will present evidence that these injections can potentially lead to an increased risk to neurodegenerative and prion diseases. The vaccine mRNA has been bioengineered to resist clearance and to coerce cells into synthesizing the SARS-CoV-2 spike protein in large quantities. This toxic protein is released into circulation and it reaches the brain where it induces a neuroinflammatory response. The spike protein has prion-like properties, and evidence from the VAERS database suggests that it increases risk to Parkinson's disease, Alzheimer's disease, and Creutzfeldt-Jakob disease.

Inflammation, mRNA shots, & The Solution of Nrf2 Activation

Dr. Christina Parks, PhD

While getting her PhD in Molecular Biology, Dr. Christina Parks' dissertation focused on cytokines and has since dedicated much of her career to understanding and educating others on the role of inflammation in disease. She illustrates in this talk how toxins, including the spike protein toxin in covid shots, is triggering massive inflammation and disease symptoms in recipients by way of NFkB Signaling. Her solution to this toxic overload is Nrf2 activation—said to be one of the most important health breakthroughs in history.

Best Protocol for Health in Biological Warfare—Nrf2 Activation

Andrea Ebert & Jenny Crane

As a society, our health is in dramatic decline and continues in a downward spiral in correlation to our toxic environment. The breakdown in our health begins at the cellular level, therefore to heal, from anything—we must first fix the cell. To overcome illness and thrive we must reduce oxidative stress, rebuild the mitochondria and activate NAD and our body's powerful sirtuins. Once the cells are working, our miracle body goes to work healing itself. The biological weapon in the last year has directly attacked our endothelial cells, blood, and mitochondria. Listen to Andrea Ebert and Jenny Crane share a very simple yet powerful health solution backed by incredible science that addresses the root cause and allows the body to heal.

**Nrf2 Activation
Increases
GLUTATHIONE 300%**

Get a Nebulizer, Avoid Hospitals, Stock Up On These...

Dr. Christiane Northrup

Dr. Christiane Northrup is a board-certified OB/GYN whose career in healing earned her a spot in Reader's Digest's list of Top 100 Most Trusted People in America. She outlines her recipe for a "miracle" tonic and the most essential tools and ingredients to stock up on at home. Her message today is clear—avoid hospitals by treating symptoms early at home and using preventive measures that are as affordable as they are effective.

Prevention and Treatment of COVID-19

Peter A. McCullough, MD, MPH

Dr. Peter McCullough holds the title as the most published scientist in the world on the topic of COVID-19. He argues that randomized trials are not delivering results quickly enough to impact the pandemic, thus as an emergency medical response to acutely ill patients, we must immediately institute combination therapy and a pivot to a research strategy where several drugs are used in sequenced combination. Future clinical trial results reported months to years will undoubtedly confirm and refine combination therapy, however, the current rates of hospitalization and death are unacceptably high under the present paradigm of watchful waiting and late hospitalization and death.

Covid-19 Vaccine and Fertility- An Evaluation of the Available Data

Craig Turczynski, Ph.D.

Concerns about COVID-19 vaccination and fertility have been raised and there are numerous anecdotal reports of menstrual cycle disruption and miscarriage. On the other hand, the top medical reproductive health organizations have been increasingly more aggressive in their support for vaccination for both pregnant women and those attempting to conceive. How does the guidance from these authorities compare to the normal guidance published for the use of drugs and clinical research on pregnant women? How should the public interpret the data reported so far on the effect of vaccination on fertility?

Deception in Healthcare Has Failed The Public

Dr. Kathleen Willis

As a board-certified internal medicine physician, Dr. Kathleen Willis was the medical director at a Louisiana hospital whose world was turned upside down with the 2020 covid pandemic. Before discovering corruption of the scientific journals she relied on to help her patients, Dr. Willis' own mother fell sick with Covid-19, and after three weeks, was permanently laid to rest. Like so many, her mother's death was unnecessary. Like so many, she has developed a strong conviction to confront the failures of our healthcare system and ensure the integrity of the field she loves.

We are living in a science-fiction nightmare...

—Robert F. Kennedy, Jr.

The War on Repurposed Drugs in COVID-19: The Battle of Ivermectin

Pierre Kory, MD, MPA

In the decades long-war by the Pharmaceutical Industry on repurposed, generic drugs across numerous disease models—never before has the financial incentive to destroy and distort the evidence-based efficacy of ivermectin been greater. Never before have the consequences of their disinformation tactics led to more deaths and suffering given the many more millions of lives that could have been saved had ivermectin been globally deployed earlier on in the pandemic. This lecture outlines all the events that have resulted in the non-adoption of ivermectin amongst the world's more advanced health care economies.

Budesonide Works: Early Outpatient Treatment Was The Answer All Along

Dr. Richard Bartlett

Texas physician Richard Bartlett speaks of the censorship and suppression of quality medical information he experienced while attempting to spread the good news to the world that a simple \$3 treatment effectively cured 90% of patients suffering from Covid-19 and was readily available in every pharmacy in the world.

covid19criticalcare.com • budesonideworks.com

Strategies for Resiliency

Dr. Joseph Mercola

With over thirty years of practice and research in the field of healthcare, Dr. Joseph Mercola shares his best of the best strategies for not only optimal health, but also navigating the medical-industrial-complex, big tech censorship, financial collapse and crisis survival. Few individuals have been as targeted and censored as Dr. Mercola, yet his positive attitude and search for solutions prevails. Discover how this titan of natural health eats, thinks, and defends his free speech in this don't-miss presentation.

The Covid Cartel

Dr. Robert Malone

Despite his long career in vaccine development, Dr. Robert Malone has emerged as one of the health freedom movement's most iconic voices, highlighting the fact that so-called "anti-vaxxers" cannot be so easily pigeon-holed, and that it is incorrect to label us as anti-science. In this collaborative interview by James Patrick of Planet Lockdown, discover what makes the inventor of mRNA technology tick, and his mindset prescriptions for all those who wish to successfully fight against the medical cartel.

Let America Live: Breaking The Cage of Fear

Dr. Stella Immanuel

America's Frontline Doctors came onto the scene with their viral press conference video shot on the steps of the nation's capitol building. Dr. Stella Immanuel's testimony was forever etched into the history books as a defining moment for our battle with Covid-19. She gave hope to the world that there were affordable cures, like hydroxychloroquine, and inspired thousands of fellow physicians to stand up and do the right thing. Her new book *Let America Live* is a ten-point plan to disciple America back to God, whom she unapologetically gives credit to as her source of confidence in fighting evil players fearlessly.

AFLDS.org

Detox Cured Chronic Coughing

Alana's oldest daughter suffered from non-stop coughing, which upset her sleep, interrupted her class, and was a problem for the whole family. After investigating the role of heavy metals as a possible culprit, Alana decided to try zeolites as a solution to her daughter's ailments. After two weeks of zeolite use the coughing was gone forever. Health Freedom Summit proudly endorses Pure Body Extra by Touchstone Essentials as one of the highest performing detox products on the market.

Day Two: Culture & Mindset

Stepping Out Onto The Highwire Del Bigtree

Del Bigtree, current host of The Highwire, is widely acknowledged as one of the top voices of the Health Freedom Movement. His career as an Emmy-winning producer of the CBS talk show, The Doctors, changed profoundly when he produced the documentary, Vaxxed: From Cover-up to Catastrophe, which is credited with igniting a revolution against pharmaceutical tyranny around the world. Listen as Del highlights what strides we've made in the fight for health freedom.

The successful warrior is the average man, with laser-like focus.

—Bruce Lee

Parrhesia: The Art of Communication Benny Wills

Self-proclaimed Apocaloptimist, Benny Wills, is a poet, meme maestro, and conversational bridge builder here to take you on a lyrical, poetic and humorous journey UP the rabbit hole and out of societal PC norms. Learn tips and mindset hacks for nurturing positive relationships with the people you love, but disagree with when it comes to politics.

Where the Light Enters You: Surviving Loss & Transforming Grief into Purpose

Kari Bundy

Ten years ago Kari Bundy went to kiss her infant son goodnight and discovered that his skin was cold and he was not responsive. He was a victim of toxic overload following routine pediatric vaccination. Kari channeled her anguish into connection and eventually started her own ministry helping people recover from grief. As many this year are coping with the loss of loved ones following medical misconduct, this talk offers practical strategies for overcoming this unique trauma.

Enticing Your Audience to Something Better

Jeff Witzeman

Musician and filmmaker Jeff Witzeman sits down for an interview with Alana about what has made him so successful as a communicator and activist. From his films about mandatory chemo treatments in children, to the role of trauma and emotions in disease, Witzeman has proactively used media as a direct approach to changing hearts and minds from one person to the next, amidst a legal-political landscape that makes it nearly impossible to experience justice in the fight against medical tyranny.

"The last two years has been the fulfillment of ideas that have been kicking around for some time." - James Corbett

COVID Lies Paving Way to Tyranny and Transhumanism

Alex Newman

The constant lies, propaganda and psychological terrorism surrounding COVID19 are paving the way to a global totalitarian system of economics and government, in addition to a shift toward what advocates describe as "transhumanism" or the Fourth Industrial Revolution. In this talk, Alex blows the lid off this evil agenda and teaches you to successfully resist.

Catholic Witness in Time of Confusion and the Help of Our Lady of Fatima

Bishop Schneider

Born in Soviet Kyrgyzstan, and raised amidst the terror of communism, Bishop Schneider has emerged as an international leader in the escalating battle between Christian individualism and the communist sacrifice of the individual for the “greater good”. His talk describes the spiritual situation of Catholics in a time of a sanitary dictatorship and the moral problem of abortion tainted vaccines.

He urges Catholics to reject abortion tainted vaccines in order to give an uncompromising witness against the fetal cell industry. Highlighted are examples of Catholics during the Soviet Communist persecution. Listeners will understand that God grants special graces in times of persecution and during trials to those who with His grace remain faithful. God will not abandon those, who for His sake are marginalized in our society. Our Lady of Fatima foretold the persecution of the faithful clergy and laypeople. Through Our Lady of Fatima God will grant them victory.

Held in Slavery by Their Fear of Death

Fr. Dave Nix

A Boston University-trained paramedic turned Catholic hermit takes a look at modern idols, real medical misinformation and the book of Wisdom. Exploring the history of “The Errors of Russia” and how modern-day slavery is rampant, Fr. Dave Nix breaks down medical communism and how medicine has become the pretext for man enslaving man using chemical bonds of coercion.

Former Satanic High Wizard Names Names

Zachary King

If you've ever wanted proof that Bill Gates is not to be trusted, this interview is for you. Zachary King joined the Occult at a young age, had sinned against all ten commandments by age 15, and became one of a handful of high wizards in the World Church of Satan, a role that put him in direct contact with many elite globalists. He experienced a fascinating conversion to Christianity and sits down with Alana to discuss the existence of truly evil people in the medical cartels, and what can be done to stop them.

The greatest kindness one can render to any man consists in leading him from error to truth.

—St. Thomas Aquinas

Truth Warrior: The Great Canadian Trucker Convoy Ignites the Flame Of Freedom Worldwide

David Whitehead

We live in an unprecedented time of censorship. As a result, there has been a massive rise in citizen journalism which has been incredibly successful at countering the media propaganda and getting the Truth out to the world. Despite all the attempts by the establishment to attack, smear and silence a real and honest discussion about the pandemic, the "vaccine" and the government policies surrounding it all, the Truth has gone viral in an organic way they never could have anticipated. The trucker convoy in Canada is just one incredible proof of this and is showing no signs of slowing down as this grassroots movement goes viral worldwide in less than a week since its beginning. People all over the world are starting to see that the lie contains within it the seeds of its own destruction and that in the end, the Truth will win the day.

Coercion, Medical Providers, and The Pandemic Response

Anthony Luczak, APRN

Yale-trained Pediatric Nurse Practitioner Anthony Luczak entered his profession specifically with the goal of serving his community through immunization after the traumatic experience of witnessing his son nearly die from a vaccine-preventable disease while on mission in a developing country. Despite his profound approval for and participation in vaccination campaigns, Luczak became disillusioned with the way in which the medical community was handling Covid-19 in July of 2021. In this talk, he draws on the use of manipulative psychology in our current healthcare system, and its similarities to what his grandmother experienced in WW2 Poland.

The Future of Planet Lockdown

James Patrick

Director James Patrick describes his journey to make the film, Planet Lockdown, and the extensive, high quality interviews he's been able to collect of Europe and North America's top thought leaders on the topic of freedom, health, and the economic nuances of the Covid-19 mandates. With a particular interest in economics, Patrick sheds light on how digital currencies and vaccine passports are surprisingly being used and is touring his film to communities across the United States in hopes of stirring conversation.

Fighting Medical Apartheid Through Advocacy, Education and Public Policy

Kevin Jenkins

Kevin Jenkins, CEO of Urban Global Health Alliance and partner of the Freedom Travel Alliance has been traveling America with a simple but powerful message: “We want to change the culture of health in America through advocacy, education and public policy.” Jenkins is hopeful that America is waking up and that people do understand the tyranny. They understand what's at stake. In what he's calling the ‘new medical apartheid’ Jenkins draws powerful parallels between historical slavery and how Big Pharma and Big Tech are now profiting off of people's bodies. He warns “we will be perpetual slaves if we don't fight back against this slave passport.”

“Sixty years ago, I couldn't go into a diner because I was deemed unclean. Sixty years ago, I couldn't get on a bus because they said I was unclean. Sixty years ago, I couldn't swim in a swimming pool with you because they would say I was unclean. Today I can't go into a restaurant without a slave passport or I'm assumed to be unclean. What would Martin Luther King or Malcolm X or Ida B. Wells say about what's going on? I can tell you what they would say. *'Fight back with your life.'* Fight back against this tyrannical medical apartheid. We will be perpetual slaves if we don't fight back against this slave passport.”

- Kevin Jenkins, CEO of Urban Global Health Alliance

Day Three: Strategy

Give Me Liberty—A Reflection On Our Current Crisis

Dr. Naomi Wolf

Dr. Naomi Wolf is a bestselling author, columnist, and professor; she is a graduate of Yale University and received a doctorate from Oxford. She is co-founder and CEO of DailyClout.io, a successful civic tech company. A charismatic personality with a passion for activism, Dr. Wolf continues to question establishment views on gender, foreign policy, economics, and journalism.

Since the publication of her landmark, international bestseller, *The Beauty Myth*, which *The New York Times* called “one of the most important books of the 20th century,” Dr. Wolf’s other seven bestsellers have been translated worldwide. *The End of America*, which won the 2008 Nautilus Silver Award for social change and activism, and *Give Me Liberty: A Handbook For American Revolutionaries* which predicted the current crisis in authoritarianism and presented effective tools for citizens to promote civic engagement.

Dig It!
CoreysDigs.com

Vaccine ID Passports

Corey Lynn

Investigative journalist Corey Lynn exposes corrupt agendas against humanity to make people aware of what is really happening, and who is behind it, and to give them advance notice so they can make the best decisions for their families in trying to navigate corruption. Her new book *Global Landscape on Vaccine ID Passports* was recently published by the Solari Report and outlines how globalists are using vaccine ID passports as part of a coordinated push to implement digital identities and a global social credit system that would control every aspect of people's lives—including their ability to transact as well as their access to food, health care, energy, travel, and more.

Transforming the Sick-Care Industry

Dr. Pam Popper

After two decades working to transform the sick care industry, Pam Popper's Wellness Forum was well-positioned to offer real health solutions for at-risk individuals trying to understand the risks and benefits of the proposed medical protocols being proscribed by top public health officials and their PR firms. As restrictions failed to loosen, Make Americans Free Again emerged with her leadership and her home state of Ohio became a leading example of what is possible when citizens take action and advocate for their own best interests.

COVID-19 and the Global Predators: We Are the Prey

Peter Breggin, MD

"COVID-19 and the Global Predators: We Are the Prey" is the only deep dive into the international billionaires, agencies, organizations and countries behind the assault on Western freedom under the guise of public health management of COVID-19. Authors Peter R Breggin MD and his wife Ginger Breggin have spent 18 months discovering and documenting the "causes" behind the constructed public health crisis that has been planned to suspend freedoms and liberties everywhere. Dr. Breggin peels back the mysteries and brings the evidence and the truth of this answer to the Great Reset and who is behind it.

"Constitutional and Human Rights become even more important during times of emergency." -Leah Wilson

Facts About Fauci Robert F. Kennedy, Jr.

Over his 50-year career as a government bureaucrat, Dr. Fauci has consistently served the interests of himself, Big Pharma and the military — while failing the American public. Through painstaking and meticulous research, Robert F. Kennedy, Jr. unearths facts about Dr. Fauci that should alarm every American who cares about this country — and the future our children will inherit. Discover the phenomenon of “agency capture” and prepare yourself for the sober realization that our health authorities report card shows only skyrocketing chronic disease, while life expectancy and fertility have plummeted.

Rights Review—Understand and Defend Your Rights

Mary Holland

Our most fundamental rights are under attack—our rights to bodily integrity, informed consent, to refuse unwanted medical interventions, parental rights, free speech and expression, free press, free exercise of religion, free movement, assembly, to petition the government for grievances—the list goes on. Let's review what your rights are—and how you can stand up for them for you and your family.

An Important Canadian Update - Everything you Need to Know

Ted Kuntz & Michelle McIsaac

Ted Kuntz is the President of Vaccine Choice Canada and author of several books, most recently, *Dare to Question—One Parent to Another*. Michelle McIsaac is a Holistic Nutritionist and founder of Health Freedom 101, the Canadian version of Health Freedom Summit.

Both Ted and Michelle are the parents of vaccine-injured children and together in this talk they offer timely information about the Canadian health freedom movement, the freedom convoy, and how North Americans can unite.

Religious Exemption Success Strategies

Peggy Hall

Peggy Hall is the founder of The Healthy American. In this battle of good vs evil, the end game of the evil-doers is to obliterate religious liberty so people will worship the government instead of God. The battle-field? The workplace, colleges, medical settings, and businesses. Find out what works (and what doesn't) so you can stand up for your rights, and honor God as you live in dignity and freedom.

Perspectives from Australia: The World Is United Like Never Before

Monica Smit

After founding Reignite Democracy Australia, Monica Smit became the first Australian political prisoner, suffering twenty-two days in solitary confinement for the bogus ruling of “incitement” after criticizing the covid public health dictates. Smit describes the war-zone-like atmosphere of some major Aussie cities, warns the world about the policies and atmosphere that led to the draconian restrictions in place in what used to be considered one of the freest nations on the planet, and offers strategies for unification, hope, and liberty.

How to Win an Election: Setting Vote Goals, Identifying Your Voters, and Getting Them to the Polls

Woody Jenkins

A practical guide for citizens considering running for public office. The emphasis will be on the “secret” to winning an election. We will consider why you want to run, getting ready to run, raising money, key issues and messaging, timetables and budgets, advertising and mail, campaigning door to door, and signs. However, at least half the time will be spend on the key to winning, which is setting vote goals, identifying your voters, and getting them to the polls.

Off Grid Living: Surviving the Purge

Erin Elizabeth

Author and journalist Erin Elizabeth of Health Nut News, has been lecturing and writing for many years about health, vaccine injury, attacks on health freedom, and media censorship. Named as one of the famous “Disinformation Dozen” by the Orwellian misnamed “Center for Countering Digital Hate”, Erin will talk about the coordinated efforts to suppress leaders in our movement, and the survival hacks you can take right away to protect your free speech, food supply, and financial wellbeing.

You do not have to wear those masks. Please take them off. Honestly, it's not doing anything. We've gotta stop with this COVID theater. So, if you wanna wear it, fine, but this is ridiculous.

—Gov. Ron deSantis

Physically Engage at A Local Level Ann Vandersteel

Investigative journalist and political commentator Ann Vandersteel succinctly delivers her call to action for freedom fighters: it's time to show up in person to school board and city council meetings

Entertaining and Educating The Next Generation

Connor Boyack

Author of the hit book-series-turned-TV-show The Tuttle Twins, Connor Boyack struggled to find children's books teaching principles of liberty and free market economics to his kids, so he decided to start writing. His books have sold over 3.5 million copies, and the show has just launched its 7th episode featuring comedian JP Sears. They teach why socialism and communism have failed everywhere they've been tried, and winsomely demonstrate how free market economic principles matter. In this interview, Boyack shares how the books and curriculum were made, how it relates to the pandemic, and what's on the horizon for this hit series.

The spike proteins in these vaccines are known to be highly toxic and cause damage to the body. Worse, these vaccines are forcing the body to reproduce these dangerous, pathogenic, lethal proteins.

—Dr. Peter McCullough

Bonds for The Win

Introducing a unique training platform that's educating people on how to hold elected officials accountable to their oaths of office. Many elected officials are required to be bonded making them personally liable if they use their position for fraud or malpractice.

I can't wait to share the amazing stories of how people are winning with you! They're getting mandates repealed and rights restored but more importantly, the news of their victories are awakening a sense of accountability in public servants. Restored accountability at every level of government is an important protection against future federal and global agendas—join me for this inspirational training and let's go for the win.

MEET YOUR SUMMIT HOSTS

Health Freedom Summit co-founders Alana Newman and Stephanie Lind met in New York City at a luncheon hosted by CNN broadcaster Soledad O'Brien. The luncheon discussed Women's Opinions on the 2012 election for publication in People's Magazine, and the two quickly found themselves admiring the other's comments from across the room before proceeding to cause a ruckus.

Alana Newman is the speaker curator of Health Freedom Summit. Her experience comes from being a health advocate for her three children, as well as involvement in five documentary films most recently *Sexual Revolution: 50 Years Since Humanae Vitae*, *Future Baby*, and *Father, Mother, Donor, Child*. She has spent most of her career speaking about Reproductive Technologies and Infertility at venues such as Princeton University and The UN and writing for publications such as *The Public Discourse* and *The Federalist*. She grew up in Cupertino, CA and now resides in Louisiana.
